DNA POINT 1
Genesis of Creation

The Big Bang: 13.798 ± 0.037 BCE

DNA POINT 2
Set Exterior

Transhuman Transportal Exterior

ACT 1: BREAKING THE MORTAL COIL

Dead silence. An eternal void of infinite blackness. A single dot of light the size of a neutrino appears from the nothingness. In an instant it explodes, radiating blinding light in every direction. Just as quickly the light implodes, bending, stretching and shaping space-time, then mushrooms with a billion megaton explosion of life. From the event horizon, masses of gas and particles ignite into what is now space, travelling through time as brilliant dust and hydrogen clouds, heating and expanding, cooling and condensing in a cosmic soup of sacred geometric patterns and fractals that take shape into swirling galaxies, lustrous nebulae, shimmering stars and gleaming, earthlike planets. This is the Big Bang. The genesis of all life.

At the epicenter of our new universe is a black hole. On the edge of that hole is a tiny blip, an orb of light pulsating in and out of time and dimension. Edging closer it takes the shape of a smooth, seamless, vessel, skipping across the galaxy like a flat stone skimming across a glassy lake. The vessel speeds up to warp velocity, getting closer and closer until it envelops the frame in a blinding white light.

We are on board the TRANSHUMAN TRANSPORTAL

An interdimensional craft designed to transcend the space-time continuum, existing in super-space, beyond the physics of the known universe. This is a technological marvel created out of the singularity, the very pinnacle of achievement in human ingenuity.

ACT 1
2:00 INTRO

TRANSHUMAN

TRACKING THE RACE BETWEEN MAN AND MACHINE

DNA POINT 3

Set Interior

Transportal: Interior

Fading inside the craft we find a geodesic domed chamber with an elevated holographic platform. Genetic code, sacred geometry and data streams cascade softly down the virtual walls. A form materializes in the center of the platform, taking on a humanoid shape. *TRANSHUMAN HOST* and neo-tech philosopher *JASON SILVA* merges into view. In his hand he holds a *HOLO-PAD*, a flexible, paper-thin transparent beveled glass tablet.

DNA POINT 4

Locator Prop

Transhuman Holo-Pad

"This is where it all began. The seeds of life born in a billionth of a nano-second, out of a universal urge to expand, create and master the dimension of physical matter. Whether we choose to call it God, Allah, The Source, or a host of other names, it remains the same. This is our genesis, the incubator of humanity, the singularity of life. Within this space we are timeless, immortal, infinite, and can track the evolution of our species from the past to the present and beyond to our ultimate future.

Jason lightly taps commands into his Holo-Pad, a holographic projection of equations, ancient text, and DNA double helix expand from the device. Jason spins the *DNA LOCATOR*, a timeline of dates, events, and names sprout from its coils spinning through millions of years and ages on earth. He selects a date, 1599; it expands in front of him with images of Shakespeare and swirls of indiscernible languages slowly merging into an English phrase.

DNA POINT 5

Immortal Obsession

William Shakespeare: 1564-1616

"It is not in the stars to hold our destiny but in ourselves."
~ William Shakespeare

"William Shakespeare wrote these words in 1599 in his play *The Tragedy of Julius Caesar*, chronicling the conspiracy against the Roman dictator, Julius Caesar, one of history's greatest yet flawed generals. Caesars ambition for power and belief in his transcendental supremacy blinded his rationality ultimately leading to his assassination and the demise of the Roman Empire. But Caesar was not alone in his quest to break the mortal coil."

TRACKING THE RACE BETWEEN MAN AND MACHINE

WHO ARE WE?

Chapters of our history's most influential literary works and powerful myths catalogue in vivid detail the evolution of mankind and our insatiable quest to transcend the laws of time and space.

Jason taps away at the Holo-Pad. With light flicks of his wrist photos, videos and 3D objects materialize and elevate off the pad, quickly assembling into crystal clear images of...

As the elements manifest, spinning and spreading across the smooth cavity of the geodisc, they slide into place along the curved virtual walls, merging into the data stream, rotating positions like blocks in a game of Tetris.

"Since time began, our greatest minds have scoured every corner of the globe searching for keys to unlock the doors to immortality..."

WHY ARE WE HERE?

...Being the consummate storytellers we are, our pursuit for seeds to the tree of life have sprouted and bloomed through the branches of our modern cinema and pop culture. Though often beyond belief, these amazing stories and incredible visions have served to inspire generations of scientists and researchers to unlock mysteries, discover clues, and find answers to the age-old questions - "

The wall is filled with endless cells of imagery; all tied to the great mystery of life's origins and questions of eternity.

WHAT IS OUR DESTINY?

TRACKING THE RACE BETWEEN MAN AND MACHINE

DNA POINT 6

Human Longevity

Zygote Cell Division

"The practice of Ancient Alchemy, development of the *Scientific Method*, formulation of *The Theory of Relativity*, and breakthroughs in *Medical Technology* and *Stem Cell Research*, have spearheaded some of our greatest achievements in human longevity. They've given us answers to many questions about our origins and provided key insights leading us to establish systems that have increased our life expectancy two and three-fold in a very short period of time."

Today, our thirst for enlightenment and drive to achieve a god-like state has brought us to such a brink of superior advancement that our species now appears to be hurdling toward a new *singularity* -

THE POINT WHERE OUR TECHNOLOGY EXCEEDS OUR HUMANITY.

*What kind of super-beings will emerge on the other side?
Will it be within our control, or will it control us?
How much time do we really have left?*

In order to answer these questions we must explore the scientific revolutions that brought us to this moment and track the evolution of man's immortal quest. But first, we'll need to investigate the genesis of man's creation on Earth and the myths & theories that sparked our initial curiosity for eternal life.

Leading scientists, historians, authors, artists, and philosophers who have cracked the code to our ancestors immortal obsession will help guide our way as we journey through time and space to ensure the future of humanity remains within our grasp.

BUT WE HAVE TO HURRY, BECAUSE TIME IS RUNNING OUT.

As Dr. Carl Sagan said,

"You have to know the past to understand the present."

And to predict the future, one must study or in our case, travel, into the past."

TRANSHUMAN

TRACKING THE RACE BETWEEN MAN AND MACHINE

OUR FIRST STOP? THE CRADLE OF CIVILIZATION.

Jason types coordinates into his Holo-Pad. A map of the ancient world projects from the tablet, he spins the DNA Locator and selects a date, 10,000 BCE. The map slows and scans to reveal...

ACT 2: GÖBEKLI TEPE, TURKEY

GÖBEKLI TEPE, undoubtedly the most important archaeological site in the world, carbon dated to be over 12000 years old, is home to what we know as the first evidence of an advanced civilization. The Sumerian culture, who settled in this fertile crescent plain, describe in great detail the genesis of man in *The Epic of Gilgamesh* and their 'Creation Myth'; the oldest surviving accounts of our origins."

Images of Sumerian artifacts, carvings and cuneiform merge into the Transportal wall, curving smoothly across the entirety of the dome behind Jason. He turns to the now living-breathing image of the megalithic sanctuary.

WANNA TAKE A RIDE?

A couple more taps on the Holo-tab and the Transportal dematerializes through a liquid, light bending stargate transporting Jason to the actual circular compounds of Göbekli Tepe, next to a T-shaped limestone megalithic structure.

"In 1994, a Kurdish Shephard, Savak Yildiz, was tending his sheep here when he spotted a strange outcropping of rock in this field. He brushed it off and discovered a large oblong stone underneath."

"He reports his find and later that year leading archaeologists inspect the site and determine that it is actually a prehistoric megalithic religious center dating 8,000 years older than previously accepted history."

THIS PLACE IS OLDER THAN STONEHENGE, OLDER THEN THE PYRAMIDS, OLDER THAN OUR RECORDED HISTORY.

DNA POINT 9

Creator Race

Jason Martell
Annunaki Researcher

TIME TO ASK THE EXPERTS.

Jason activates his Holo-Pad, scans the DNA Locator then selects it, dematerializing and re-appearing in...

LOS ANGELES, CALIFORNIA
OFFICES OF BOOYA MEDIA

JASON MARTELL - Leading researcher and lecturer on ancient civilizations and the *Annunaki*.

According to author and world renowned linguist *Zachariah Sitchin*, (Jason Martell's mentor), a man who spent his entire life exhaustively translating the ancient Sumerian texts, the *Annunaki*, which translates to "those who from Heaven to Earth came", were a race of beings from the planet *Nibiru*, a planet located within our galaxy that makes a 3,600 year egg shaped orbit around our sun.

These immortal 'sky gods' came to earth to mine for precious metals, especially gold, to use in the repair of their deteriorating atmosphere. After years of doing the work themselves they grew tired of their labors and decided to manipulate the DNA of primitive man with their own and create a slave race in their lab or 'Garden' to help them with their mining operations.

*Could this be the original Adam and Eve?
Is this the Garden of Eden?*

They adjusted man's genetic code, shortening our lifespan and rewired key sections of our brains to limit intelligence capabilities to create a new human species to exist above the food chain yet subservient to them alone.

THIS IS THE FIRST ACCOUNT OF GENETIC MANIPULATION KNOWN TO MAN.

Gilgamesh was one of man's many rulers, who, upon discovering that immortality was achievable, abandoned his duties as king and embarked on a fantastic voyage to seek out the secrets to eternal life. On his journey he encounters *giants and mythological beasts*, finally encountering the immortal *Utnapishtam* (the Biblical Noah), who denies his request for immortality and recounts his personal experience of *The Great Deluge*, a punishment wrought on man for defying the laws of their gods and nature.

DNA POINT 10

Ancient Ancestors

Alleged Nephilim Dig Site

DNA POINT 11

Mass Genocide

Global Flood: 2150 BCE

POP GLITCH

THIS IS THE STORY OF THE BIBLICAL FLOOD IN ITS ORIGINAL FORM, WRITTEN IN STONE THOUSANDS OF YEARS BEFORE THE BIBLE.

After several generations and an explosion in population by the 'new species' they created, some of the Annunaki began to find the women of earth very beautiful. Several of them marrying and breeding with them, creating half god, half man offspring abominations, giants known as 'the Nephilim'.

"The Nephilim were on the earth in those days, and also afterward, when the sons of God came in to the daughters of man and they bore children to them.." ~ Genesis 6:4

This angered many of the Annunaki, especially *Enlil*, one of the most powerful, and they decided to abandon the entire 'human project' and decimate the population altogether by means of a global flood.

Only a few survived, the biblical Noah and his family, who was secretly instructed by Enlil's brother *Enki*, to build an ark and fill it with two of every species on Earth to preserve life to. After the flood, Noah landed on *Mount Ararat*, descended with his family and built an alter to the gods in gratitude for sparing his life.

Enlil, angry at Enki's betrayal by saving Noah's life eventually realizes how wrong his act of *mass human genocide* was and allows Noah to live, granting him and his family immortality but condemning the rest of mankind to "...a life of labor, only able to achieve immortality through lasting works of civilization and culture".

ESSENTIALLY TELLING US, IF YOU WANT TO ACHIEVE IMMORTALITY, YOU'LL HAVE TO FIGURE IT OUT FOR YOURSELF.

With this key information on hand, Jason rematerializes back at Göbekli Tepe.

This brings us back to this very spot. From that moment on, we sought to shatter our mortal coil, building monumental civilizations, establishing amazing cultures, spanning the globe by the sweat of our brow, working tirelessly toward the ultimate prize.

Luo Meizhan: World's Oldest Woman

SO WHERE ARE WE NOW? WHAT IS THE CURRENT STATE OF OUR IMMORTAL SCIENCE?

If we follow the beliefs of the ancient Sumerians, and even Shakespeare, it seems the key to life lies inside of us, in our blood, deep in the *microcosm of our DNA*.

In present day *China*, scientists are leading the pack in the development of cutting edge *DNA research and stem cell therapies* and treatments to increase our longevity, and additionally, it's home to the oldest recorded living humans to date.

*Who are these Centenarians and what is their secret?
Does our environment play a role in longevity?*

Jason accesses the DNA Locator then selects a date and location...

ACT 3: CHINA

He dematerializes, re-appearing in the *Hubei Province of China* at the residence of -

LU ZIJIAN, MARTIAL ARTS MASTER, 117 YEARS OLD
*Born in the Hubei Province
19th year of Emperor Guanxu on October 15th, 1893*

Where he meets the world's oldest man and investigates his powers of will, his study of martial arts as well as his strange eating habits. Even sampling some of the regions odd 'delicacies'.

After their rendezvous, Jason quickly travels to the *Guangxi Province* where he is introduced to -

LUO MEIZHAN, FEMALE HOUSEWIFE, 127 YEARS OLD
*Born in the Guangxi Province
21st year of Emperor Guanxu on July 9, 1885*

Luo, a simple housewife who never learned how to read shares fascinating stories of living through some of the greatest moments in history, her family and daily life in a rural area.

After an depth interview with the *Centenarians* and discovering their secrets to longevity he transportsd himself to *Guangzhou, China*, home to -

Stem Cells

Guangzhou Stem Cell Conference

THE 4TH ANNUAL CONFERENCE ON STEM CELL RESEARCH

This is the Mecca of *life extension*. Every year, the Conference on Stem Cell Research is host to over 500 leading research labs and medical companies from all over the world who specialize in the *science of living forever*. Stem Cell research was considered the first of the world's top ten in scientific progress by Science Magazine.

This year's conference plays a prominent role in promoting stem cell research for *regenerative medicine*, and enhance exchanges and cooperation with international counterparts. The conference intends to focus on *Embryonic stem cells* as well as the *molecular mechanism* of stem cells, stem cells and the *nervous system regeneration*, stem cells and *reproductive development*, and other issues to conduct extensive exchanges and discussions.

DR. HONGKUI DENG

Distinguished Professor of the School of Life Sciences, Peking

DR. TAN JIN

Director for the Center for Tissue engineering and Regenerative Medicine, 4th Military Medical University

DR. LIANGXHU LAI

Deputy Director of the South China Institute of Stem Cell and Regenerative Medicine

DR. YONGHONG WANG

Researcher of the institute of Genetics and Developmental Biology, CAS

DR. SHUYUAN YAO

Associate Director of Alien Institute for Brain Science, US

After a thorough investigation of Stem Cell and DNA technology and its role in the aging process, the question is raised of the future of this research. Being that the current regulations of this study has been seriously limited by religious and special interest groups, advancement of these treatments have been crippled and even stalled in many cases.

Are there places in the world that science can operate beyond the laws of government and special interest groups?

Peter Nygard
Stem Cell Pioneer

CONSTRUCT SITE:
Nygaard Biotech Island

YES. THERE ARE. And the hotspot just happens to be in paradise. Let's check out the Garden of Eden, 2.0.

Jason punches in coordinates on his Holo-Pad, selecting a date, location and time on his DNA Locator...

ACT 4: THE BAHAMAS

NYGÅRD CAY is a 6-acre dreamland off the coast of Nassau, Bahamas, in the middle of the free trade zone. This proverbial paradise of Mayan inspired architecture, lush tropical flora exquisite waterfalls and state of the art creature comforts has been the destination of choice for celebrity vacationers like Sean Connery, Oprah Winfrey, Robert De Niro and former President George H.W. Bush.

PETER NYGÅRD: Owner of Nygard Caye, entrepreneur, billionaire fashion mogul and life extension activist.

Peter Nygard, has been leading the pack in stem cell research here, reportedly investing over \$500 million dollars, mostly of his own money, to the cause to date. For the better part of 3 years, Nygård has been seeking to bring together global stem cell research stakeholders from Panama, China and Korea to try and make some real headway.

His ultimate plan is to found a center in the Bahamas, Nygård Biotech, for regenerative medicine without government or special interest restrictions and fund a new revolutionary health care system with the goal of extending and improving the quality of life for millions around the world.

Jason Interviews Peter Nygård, who goes into great detail about the future of stem cell research and life extension technologies. This discussion leads to the subject of existing clinics nearby who are quickly becoming famous for providing advanced regenerative therapies for patients from every corner of the globe. Peter Nygård then explains the future of Nygård Biotech and the facilities he plans to open on a private island in the Bahamas.

After the interview, Jason travels to...

TRACKING THE RACE BETWEEN MAN AND MACHINE

ACT 5: LET'S TAKE A LOOK AT WHAT WE NOW KNOW-

Mankind has been on a constant search to discover *the fountain of youth*, literally since civilization began.

There's unprecedented evidence to suggest that our initial curiosity about life extension began during the genesis of our own *human creation*.

Modern advancement in medical science, like stem cell research, DNA sequencing, molecular manufacturing and environmental conditioning, have provided us with key insights to breaking the code to what makes us human, giving us real possibilities that could allow us to *transcend our physical constraints*.

The future of humanity lies in the balance of these advancements and it's only a matter of time before we achieve our *ultimate prize*.

Would living forever break the natural laws of life or is it simply the inevitable evolution of our species?

Could immortality be achieved in our lifetime?

If it could, what would be the global impact of 5 billion people who could transcend death?

In order to understand the impact of these questions further, we need to explore the source of these innovations, the *initial spark* that brought them all into existence.

On the next episode we'll unlock the secrets to our ingenuity through the powers of the human brain.

UNTIL NEXT TIME... OR SPACE.

Jason and the Transportal dissolve to white.

NEXT - EPISODE 2: "BRILLIANT" Mind Over Matter
