WEAPONS OF MASS EXTINCTION

TABLETS OF TITAAAN

The original Tablets of Titaan held the knowledge of the universe as well as the power to augment worlds through various physical and supernatural means.

The tablets were originally bestowed on the Paharu, by the Council of Worlds to assist in building the Living Library on Earth; making it habitable for humans to evolve as well as program it to store all their information and connect it to the universal collective.

They were stolen from the Paharu Queen by Malok during a great battle which ended in her murder. Since then Malok has used them to control the planet and create a slave race to serve his interests.

PHYSICAL DESCRIPTION

There are 3 tablets, each containing very specific properties. They are all encased in a bronze\gold alloy which protects them from data corruption and radiation during space travel.

Essentially they are in an alien version of a Faraday Cage.

They are each the size of a modern munitions case, forged into a disk shape.

They are sculpted to fit and attach to a Aturian breastplate. One over each breast and one covering the abdomen.

WHEN USED PROPERLY IN BATTLE, THE WEARER IS VIRTUALLY INDESTRUCTIBLE.

THE TABLET OF POWER: LEFT BREAST

11 Intelligent/ Conscious Crystalline Stones each with different properties and powers. Each stone measures

Length 25.60 mm

Width 21.78 mm

Depth 12.00 mm

Roughly the size of the Hope Diamond.

Whoever holds these has the power to control almost every aspect of the earth and its people.

THE TABLET OF WISDOM: RIGHT BREAST

An ancient crystalline stone inscribed with secret words that when spoken correctly, (voice activated) emits a holographic projection inside the stone that streams all known data pertaining to the subject inquiry.

Essentially the Google of the gods.

THE TABLET OF FATES: ABDOMEN

A crystalline time gazing device that allows the user to see events that have happened in the past as well as potential outcomes in the future. In addition, it holds a record of every living thing in the universe, their complete past, including who they were, where they came from, their weaknesses and strengths, as well as their possible destiny. Information provided is based on predictive scenarios and can not account for man's "free will."

If held/worn, it can be activated by thought simply by looking at a person, place, thing or event taking place in real time.

NAKA STONE

USES: Healing | Pestilence
SIDE EFFECTS: Death
KEEPER OF THE STONE: Naka
INTEGRATION: Anchored in Naka's Chest, fused with his cardio-vascular system, and absorbed into his scythe.

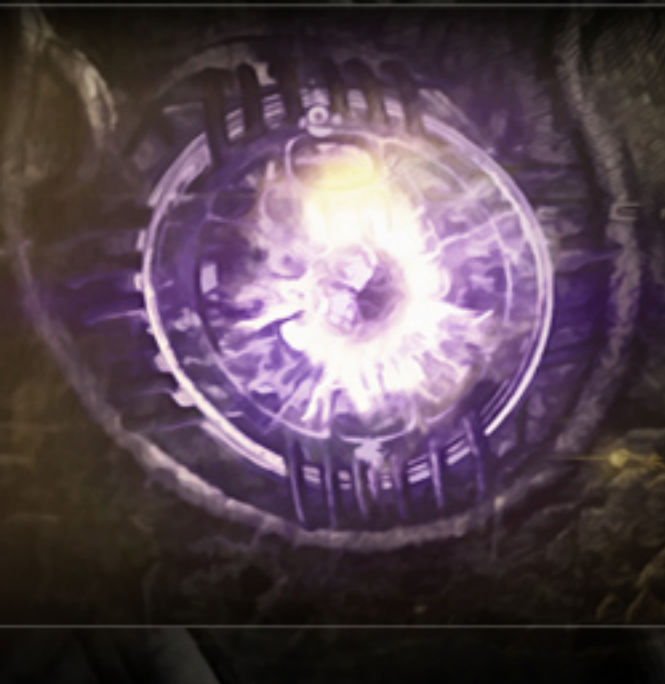

A highly porous bloodstone fused with a hemoglobin accelerant and laced with the *yesinia pestis* bacteria, better known as the "Black Plague" virus. If activated within a 10 meter range, the airborne virus proliferates in the lymph nodes of its host where it is able to evade immune system cells and launch a systematic invasion of the body, causing boils, lesions and certain death. Upon expiration, the hemoglobin accelerant kicks in, burning up all aqueous material and reducing the victim to ash within minutes. The remaining ash is then absorbed back into the stone as a means of recharging its power.

CHOKOR STONE

USES: Regeneration | Decomposition
SIDE EFFECTS: Hunger | Hallucinations | Death
KEEPER OF THE STONE: Chocor
INTEGRATION: Stitched into Chocor's lower intestines, laced into his digestive system, and injected into his hatchet.

A potently toxic stone made of phosphorous, magnesium, iron, and calcium that glows green when it comes into contact with air. When activated, the stone creates an ionized field with a five meter radius that quickly absorbs essential minerals in the lower intestines of its human and animal hosts. Victims experience insatiable hunger, loss of vision, hallucinations, mental confusion, irregular breathing, delusions and are highly susceptible to suggestion. Effects can last for days to weeks and eventually leads to death.

TIFE STONE

USES: Intelligence Enhancement | Mind Control
SIDE EFFECTS: Bloodlust | Paralysis | Derangement | Death
KEEPER OF THE STONE: Tife
INTEGRATION: Merged into Tife's primary motor cortex and infused into his cerebrum and limbic system.

A deadly fossilized stone encased in a protective amethyst shield and composed of crystallized manganese and the tetrodotoxin infested skull of a 200,000 year old pufferfish. When released, it radiates a potent airborne neurotoxin that blocks the fast voltage-gated sodium channels in the body, cutting off communication to the brain and causing immediate paralysis, low heart rate, and death like symptoms to anyone within a 5 meter range. A single micron shaving of the stone, mixed with a cocktail of powdered neuro inhibitors, can be used to revive the victim and keep them in a deranged, bloodthirsty, and easily suggestible state for an indefinite amount of time.

RATH STONE

USES: Peace | War
SIDE EFFECTS: Vomiting | Bleeding | Hair and Nail Loss | Death
KEEPER OF THE STONE: Rath
INTEGRATION: Welded into Rath's shoulder, bound to her central nervous system, and folded into her katanas.

An extremely radioactive stone composed of concentrated radium, uranium, and potassium 40, emedded inside an agate and lead crystal shield. When exposed, the stone emits powerful ionized gamma rays that inflict instant Acute Radiation Syndrome and causes vomiting, hair and nail loss, fever, bleeding and hemorrhaging, cognitive and vascular shutdown, and is invariably fatal within an hour. In direct contact, the stone or any weapon it is laced with has the ability to decimate entire crowds or armies in seconds.

GODSTONE

USES: Superhuman strength

SIDE EFFECTS: Extreme fatigue lasting up to 1 hour after use | Potential muscle explosion

KEEPER OF THE STONE: Malok

LOCATION: Fastened to Malok's Chestplate, main-lined to his adrenal gland and bonded to his muscular system

An “off world” crystalline stone that binds to the central nervous system of the wearer and, when activated, sends chemical signals to the body that increase adrenaline production 100 fold. This redirects all blood flow to the muscles and creates a temporary jolt of Herculean power that lasts until the body depletes its stored supply of adrenaline. Any wearer commanding the stone is able to lift objects over 50 times their weight, leap over buildings and virtually destroy anything in its path.

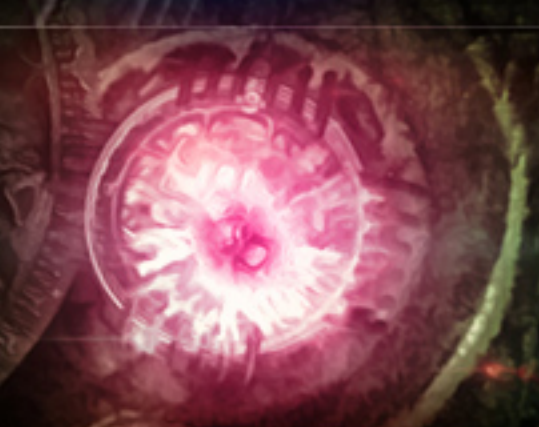

FORGESTONE

USES: Melting & forming large stones or metal | Energy Weapon
SIDE EFFECTS: Cancer | Cornea damage | Birth defects | Death
KEEPER OF THE STONE: Malok

An “Active Denial System” (ADS) that utilizes a concentration of nano diamonds at its core that when activated with an RF field wave generates a beam of super conducted heat with a range of up to 100 meters. The beam can burn through skin, bone, metal, stone and wood as easily as a hot knife through butter.

LIGHTSTONE

USES: Control weather | Generate EMP's | Incapacitate humans
SIDE EFFECTS: Death | Neurological defects
KEEPER OF THE STONE: The Aturians

A form of high powered electro laser forged from a neodymium-doped yttrium aluminium garnet. When activated, an emitted laser beam rapidly heats and ionizes surrounding gases to form plasma, producing an electrically conductive channel capable of delivering a precise lightning strike on a target.

FEATHERSTONE

USES: Air travel | Megalithic Construction | Transportation | War
SIDE EFFECTS: Memory loss | Spatial distortion | Death
KEEPER OF THE STONE: The Aturians

An antigravity stone created from of a ring of superconducted yttrium barium copper oxide encased in liquid nitrogen that rapidly oscillates and generates a reverse magnetic field. This field connects to a grid of granite quartz conductors (obelisks), causing anything within the the zone to lose 95% of it weight.

BRIMSTONE

USES: Gene mutation | Gunpowder | Fire | Insecticide | Fertilizer
SIDE EFFECTS: Ulcers | Blindness | Neurological disease | Death
KEEPER OF THE STONE: Malok

A molecular cytotoxic chemical warfare agent made from the sulfur stone that causes permanent alkylation of the guanine nucleotide in DNA , which prevents cellular division and leads to programmed cell death. When activated, it releases a chemical that causes severe blistering of the skin and lungs and immediate death.

VAULTSTONE

USES: Securing and protecting objects | Geolocation
SIDE EFFECTS: Rashes | Muscular pain
KEEPER OF THE STONE: Naram

A ferromagnetic stone made of iron, nickel and cobalt that impenetrably binds objects at the subatomic level, essentially locking together any objects it is placed near. The stone's current can be activated by a vibrational key (voice activated password) at the time of activation and can only be turned off by the user that set it.

MAGISTONE

USES: Regenerative medicine | Turning base metals into precious metals
SIDE EFFECTS: Megomania | Madness
KEEPER OF THE STONE: Malok

A colloidal based metallic stone made from pearl, silver, gold and Telomerase Nanocells that release a powerful regenerative enzyme when mixed with water. In the body, the liquid regrows dying cells and tissue, allowing one to prolong their lifespan indefinitely. When mixed with other metals the liquid can restructure the object's properties to its base components: pearls, gold or silver.
